- 2. I understand that I may be given medicine to put me to sleep, make parts of my body numb or help control pain. Professionals with special training will give this medicine. They may be an anesthesiologist, a nurse anesthetist (CRNA), a nurse, or the doctor doing my surgery or procedure.

- Why I need this surgery or procedure.
- The possible risks to me of having this done.
- The chances of reaching my goals.
- Potential problems that may happen during my recovery.
- What other choices I can make instead of having this done.
- What can happen to me if I chose to do something else.
- What can happen to me if I choose no treatment.
- That there is no guarantee of the results.
